1st December 2006

Dear John Walton

Having attended many Seminars and Training Workshops over the years, I would like to take this opportunity to thank you for your exemplary deliverance of the Level 2 Award in Door Supervision Course I have just attended at the Cliff Hotel, Harwich, Essex.

Your deliverance was clear, concise and to the point, but always willing to recap in more detail on item or areas of the course we did not clearly understand.

The literature supplied I found not only to contain the relevant information required for the course, but in many instances went on to explain in detail relevant items that may be encountered in the execution of our duties as Door Supervisors. In all you captured my attention and delivered the information without me even realising it.

I can only send you me heart felt thanks; It was an absolute privilege to have met you, and be trained by a true professional.

Yours Sincerely

Cllr Michael Gardner
