To whom it may concern,

Security Training Centre (UK) Limited

STC are my chosen providers of security training and have provided training in several areas in support of our contracts.

Over two hundred and fifty of our staff have received training from STC; the breakdown is as follows:-

One hundred and fifty retail officers, forty static and patrol officers, thirty door supervisors, thirty close protection officers.

The quality of the training is reflected in the comments from clients regarding the high degree of professionalism displayed by our officers.

I consider I have been extremely lucky in finding a company of such high standards and have no hesitation in recommending STC to anyone considering using their services

K O'Brien

A handwritten signature in cursive script that reads 'K O'Brien'.
