

Incident Control

Training content

The training for the Incident Control Officers course takes 8 hours and can be delivered over 1 day or at weekends or evenings. The training is aimed at management or persons in a position of authority and is designed to highlight what part individuals play before, during and after an incident unfolds.

Aim: To develop knowledge and skills in incident control and management

Part 1: Classroom based training and assessment (6.5hours)

- What is an incident?
- Major incidents
- Function of the emergency services
- Actions by the first person on scene
- Scene management
- Command & control

Part 2: Practical desktop exercise (1.5hours)

- Dealing with incidents in and around the workplace
- Delegation
- Command and Control
